

Q2

#untaggable

Essentially unmistakable:

a lot will change with the Audi Q2. It's smart, customised, confident and impossible to categorise. It is #untaggable.

Because your own ideas show the way, whether in town or off the beaten track, in everyday life or off the clock. The vehicle concept for this newcomer comprises numerous innovative technologies and an impressive style.

Accompany the ambitious Q2 through Scandinavia on a journey that is as unconventional as the vehicle itself.

Follow the Audi Q2 through [#untaggable](#).

#spontaneousplans

The Audi Q2 road trip through northern Europe is a journey of discovery,
a search for exceptional encounters.

In places that allow us to take a new perspective and override what is familiar.
Places that are perfect for a vehicle that doesn't
need buzz words to be impressive.

📍 The hashtag #smallesthotel would not do justice to the magic of the Central Hotel & Café in Copenhagen. Because even if there is only one single room for guests to check into, the hotel atmosphere is more candid and far sighted than many other city hotels.

#newcomerlegend

You don't need a second look to see that the Audi Q2 as a real Audi – and yet it's hard to keep your eyes off it.

Its look is powerful, dynamic and radiates presence. The polygonal vehicle shoulders accentuate the large wheel arches, together crafting a clear statement: quattro¹.

No matter what path the Q2 takes – it's going its own way.

 The Rålis Skatepark in Stockholm – a place that actually wasn't a place at all. Not until locals decided to give the unused area under a road bridge a purpose and turned it into an urban dream for skaters.

The figures for fuel consumption and CO₂ emissions can be found from page 54 onwards.
¹Optionally available.

Why be restricted by other people's expectations when you can design things yourself? In Superkilen in Copenhagen the answer to this question has allowed a district to emerge that channels a wide range of different cultural influences into a creative collage of architecture and landscape gardening.

#bendstraight

No matter how you look at it, the Audi Q2 is a space unto itself. A brand-new line design, created especially for the Q2, culminates in corners and edges at a streamlined rear end. The body has become more athletic. Follow your own line and take the path less travelled.

The figures for fuel consumption and CO₂ emissions can be found from page 54 onwards.

Confidence is necessary to challenge the establishment.

The Audi Q2 has this confidence in its very look. With its octagonal Singleframe, it is opening a new chapter in Audi design that lends the front end its distinctive appearance. The optional LED headlights are also in step with the polygonal design. In addition, features from the Audi exclusive titanium black styling package¹ and the quantum grey paint finish are causing quite a stir as part of the optional Audi Q2 Edition #1. A stylish supplement to the S line exterior in contrasting colour and to the Audi Sport 19-inch cast aluminium wheels in 5-arm rotor design in anthracite black.^{1,2} Together, they concentrate shape and colour into fascinating expression that is impossible to ignore.

¹From Audi Sport GmbH. ²Please note the special information relating to wheels on page 57.

#typicallydifferent

The figures for fuel consumption and CO₂ emissions can be found from page 54 onwards.

#untaggable also means making your own individuality the benchmark.

With the blade of the C-pillar, for example, available as optional equipment and in matching or contrasting colour, which emphasises the coupé character of the Audi Q2. Or with the optional decorative film Audi rings for the C-pillar.¹ In the Audi Q2 Edition #1 the blades on the C-pillars are in brilliant black and depending on the equipment line selected, are also available in ibis white, ice silver, metallic, titanium grey, matt, or Manhattan grey, metallic.

New possibilities will open up.

The optional electric luggage compartment lid, for example, permits comfortable and effortless opening and closing.

And the divided rear seat bench flexibly enlarges the luggage space in the Audi Q2.

The figures for fuel consumption and CO₂ emissions can be found from page 54 onwards.

📍 You might be forgiven for thinking that power stations don't tend to have any aesthetic ambitions. People in Stockholm think differently. The very striking green walls were made using a special pressing procedure in order to achieve a three-dimensional effect. Because there is already enough one-dimensionality around.

#nowfuture

It's difficult to imagine the future.
But the Audi Q2 will show you precisely what counts
in modern mobility.

More driving comfort through Audi connect^{1,2}, for example,
with pioneering services and functions that make driving more connected and
more intelligent – such as Twitter or current weather information.

Thanks to the optional Wi-Fi hotspot and SIM card permanently installed in
the vehicle, you can continue to use your mobile devices as usual. And you will enjoy
every trip even more with the versatile range of infotainment features
as well as the Bang & Olufsen Sound System².

#realvision

The figures for fuel consumption and CO₂ emissions can be found from page 54 onwards.

Don't concentrate on what others say, concentrate on what's important.

The optional Audi virtual cockpit can help you here – intuitively and fully digitally.

You get all the information you need where you need it: always at eye level.

The same goes for the head-up display¹, available on request, which displays the most important information and notifications directly in the driver's field of vision.

The 3D map representation for the optional MMI navigation plus with MMI touch also ensures a comprehensive overview on an 8.3-inch colour display. In addition, many of your favourite apps are only a click away thanks to the optional Audi smartphone interface^{2,3,4}.

While others are still trying to classify the Audi Q2, you already know where you're going.

¹ Polarising sunglasses will restrict the use of the head-up display. ² Please contact your Audi partner for information on compatible mobile phones.

³ For information on availability in certain countries, please contact your Audi partner. ⁴ Audi has no influence on the applications shown via the Audi smartphone interface. The respective providers are responsible for the content and functions displayed within the applications.

#privatestage

A vehicle that refuses to be defined

and yet allows you to define every last detail.

The interior of the Audi Q2 thrives on individual ideas.

The optional equipment lines and packages offer numerous customisation possibilities.

Choose from different types of leather and colours to make the interior profile even more exclusive.

For example, go for the sport seats with leather design and colour-contrasting accentuated stripes.

Because an independent character has many facets.

The figures for fuel consumption and CO₂ emissions can be found from page 54 onwards.

The Audi Q2 makes the most of what an interior can do. The inlays are optionally available in different variants, such as anodised paint finish in orange, red, yellow or white, which elegantly complement the outer paint finish. In matt brushed aluminium, the inlays give the interior a particularly sporty character. The innovative format light graphics with the Ambiente lighting package are one of the Audi Q2's real highlights. Take the impressive illuminated applications that set the scene in the dashboard and centre console in different day and night designs. The interior of the Audi Q2 has a unique shine thanks to LED technology.

The figures for fuel consumption and CO₂ emissions can be found from page 54 onwards.

Even if the Audi Q2 leaves plenty of room for interpretation, the driving feel is extremely precise. The progressive steering gives the vehicle more agility and reduces steering effort round tight bends and during parking. The optional quattro permanent all-wheel drive makes driving even more controlled. Variably distributing drive force to the axles increases traction, which in turn ensures more safety and sportiness. Whichever direction you take, you'll experience complete independence.

#adventureproof

#technologyart

Anyone who rides in an Audi Q2 will experience how exciting driving dynamics can be. This is thanks in particular to the optional suspension with damper control and Audi drive select, which adapts the vehicle's character to your personal preferences – thus making either a more intensive or more efficient driving style possible. Because #untaggable means always having the choice.

The figures for fuel consumption and CO₂ emissions can be found from page 54 onwards.

📍 Drive through the industrial estate in Rågsved and you'll hardly ever want to blink. Because probably the most exciting gallery area in Sweden has been created here with the help of Sweden's best graffiti artists.

The Audi Q2 expresses the passion of being on the road.
Because with every journey we take,

we tend to free ourselves from old patterns.

With the Q2, a vehicle takes to the stage that combines
the classic Audi strengths with new and exciting ideas –
both in design and technology.

You can give the Q2 many names, but all that really counts
is what you feel when driving it.

#farnear

#contrastharmony

In an Audi Q2, there is plenty of room for your ideas to unfold. With the equipment line Q2 design, for example, the striking highlights of which reflect your personality and make an exceptional vehicle even more exceptional. This is stylishly achieved with a large selection of individual rim designs that underline the vehicle's elegant and sophisticated appearance. The contrasting paint finish gives the Q2 a decidedly individual character. And you can satisfy your own high design requirements with the Audi design selection.

The figures for fuel consumption and CO₂ emissions can be found from page 54 onwards.
Some of the equipment illustrated or described is optional equipment for which an extra charge is made.
Please contact your Audi partner or visit www.audi.co.za for detailed information about standard and optional equipment.

#1 Leather steering wheel in 3-spoke design with multifunction plus and matt brushed aluminium inlays

#2 Sport seat, front, including seat height adjustment in fine Nappa leather, granite grey with accentuated stripes and contrasting stitching in amaretto brown

#3 Leather package with contrasting stitching in amaretto brown

#longdistancesprinter

The Q2 sport equipment version lives up to its name all along the line. With details that impressively underline the temperament of the Audi Q2 and promise a powerful performance at the very first glance.

The full paint finish available in lots of exciting colours makes the vehicle seem close to the road. The blade in classic ice silver, metallic, is another visual highlight. The S line sport package further sharpens the vehicle's sporty character.

The figures for fuel consumption and CO₂ emissions can be found from page 54 onwards.
Some of the equipment illustrated or described is optional equipment for which an extra charge is made.
Please contact your Audi partner or visit www.audi.co.za for detailed information about standard and optional equipment.

#1 S line sport contour leather steering wheel in 3-spoke design with multifunction plus, flattened at the bottom, in black leather with contrasting stitching and S emblem (steering wheel grips in perforated leather) and matt brushed aluminium inlays

#2 18-inch cast aluminium wheels in 5-spoke Y design (S design)

#3 Sporty bumper designs from the sport equipment line

#sportchic

Don't just emphasise the sport character of the Audi Q2 – enhance it.
The S line exterior package further accentuates the Audi Q2's dynamic body line and uses exciting details to create special highlights.

The figures for fuel consumption and CO₂ emissions can be found from page 54 onwards.
Some of the equipment illustrated or described is optional equipment for which an extra charge is made.
Please contact your Audi partner or visit www.audi.co.za for detailed information about standard and optional equipment.

#1 Radiator grille in platinum grey, matt, front bumper and side sill trims in a striking sport design as well as S line emblem on the front wings

#2 Rear bumper as well as diffuser insert painted in platinum grey, chrome-plated trims for exhaust tailpipes (single or twin depending on engine version)

#3 Illuminated door sill trims with aluminium inlays and S emblem

#4 Side sill trims in a striking sporty design

#1 Offroad style package plus¹
(for details see #2 on the right)

#2 Offroad style package with front and rear apron, door cover strips, wheel arch trims (each in platinum grey), decorative film Audi rings for the C-pillar as well as selenite silver highlights on the underbody protection. The offroad style package plus also includes platinum grey blades for the C-pillar and decorative trims exterior mirror housings with selenite silver inlays; trim strips for the radiator grille in selenite silver; air inlets with honeycomb design; inlays in selenite silver; roof edge spoiler in body colour; 18-inch cast aluminium wheels in 5-arm latus design² (illustration shows offroad style package plus)

#multicustomised

Always go your own way. An attitude expressed through Audi Genuine Accessories.

This double page presents a selection of attachments and decorative films for the exterior as well as decorative trims for the interior.

Whether in the city or in the country – the striking details underline the character of the Audi Q2 and accentuate its striking body line. Available as optional equipment from the factory or for retrofitting from your Audi partner.

The figures for fuel consumption and CO₂ emissions can be found from page 54 onwards.

¹ Design films for many areas of the bodywork are available as an option (illustration shows quattro side sills film set in platinum grey, matt). ² Please note the special information relating to wheels on page 57. Some of the equipment illustrated or described is optional equipment for which an extra charge is made. Please contact your Audi partner or visit www.audi.co.za for detailed information about standard and optional equipment.

#3 Decorative trims interior (dashboard, interior mirror and centre console) and interior plus decorative trims (door trim and door pull handles) both available in Misano red, pearl effect, or in additional colours and versions

#4 Carbon style package with blades and exterior mirror housings in carbon

- #1 Quantum grey
- #2 Tango red, metallic
- #3 Ara blue, crystal effect
- #4 Vegas yellow
- #5 Glacier white, metallic
- #6 Coral orange, metallic
- #7 Audi exclusive customised paint finish in green¹

#accentedunaccented

Select the paint colour that best suits your personality.

Secure in the knowledge that the quality will be superb.

Because the Audi Q2 is painted not just once,
but four times. Guaranteeing a radiant appearance and providing protection
from the environment and wear.

Ensuring that the car maintains a powerful look throughout its entire lifetime.

Many additional paint finishes can be found at www.audi.co.za

The figures for fuel consumption and CO₂ emissions can be found from page 54 onwards.

Explanatory notes

¹ For information on when this feature will be available, please contact your Audi partner.

² The figure given was calculated using the specified measuring procedure (current version of UN-R 85).

³ Unladen vehicle weight includes driver (75 kg) and fuel tank 90% full, calculated in accordance with the current version of Reg. (EU) 1230/2012. Optional equipment may increase the car's unladen weight and drag coefficient, whereupon the possible payload limit and the top speed will be reduced accordingly.

⁴ The engine's power output always decreases with increasing altitude. At 1,000 m above sea level, and for every additional 1,000 m, deduct 10% from the weight of the outfit (trailer load limit + gross weight of the towing vehicle). Figure for trailer load limit applies to factory-fitted trailer towing hitch. If using the vehicle with a trailer towing hitch for commercial purposes, a digital tachograph may be required under certain conditions.

⁵ Fuel consumption and CO₂ emission figures given in ranges depending on the tyre/wheel sets used.

⁶ We recommend using sulphur-free super unleaded RON 95 fuel complying with DIN EN 228. If this is not available, use sulphur-free regular unleaded RON 91 fuel complying with DIN EN 228; power output will be slightly reduced. Unleaded RON 95 fuel with a maximum ethanol content of 10% (E10) can generally be used. Fuel consumption details refer to operation with RON 95 fuel complying with 692/2008/EC.

⁷ We recommend using sulphur-free diesel complying with DIN EN 590. If this is not available, use diesel complying with DIN EN 590.

⁸ The figures given were calculated using the specified measuring procedures. The figures do not refer to one individual vehicle and do not form part of any offer, but rather should be used purely for purposes of comparison between the different vehicle models.

⁹ A vehicle's fuel consumption and CO₂ emissions do not just depend on how efficiently the vehicle uses the fuel, but are also influenced by driving behaviour and other non-technical factors. CO₂ is the greenhouse gas primarily responsible for global warming.

¹⁰ Refilling the separate AdBlue[®] tank in accordance with the instructions in the instrument cluster display. We recommend having the AdBlue tank refilled by your Audi partner.

¹¹ Registered trademark of the Verband der Automobilindustrie e. V. (VDA) [German Association of the Automotive Industry].

The Fuel Consumption and Carbon Dioxide Emission Figures reflected were obtained in accordance with prescribed uniform measuring standards under laboratory type conditions. The measuring standards are stipulated by law. They do not apply to a specific vehicle and are provided to enable comparison between different vehicle models tested using the same uniform measuring standard. The values are accordingly not necessarily representative of real-life driving conditions. Factors such as driving style, vehicle load, road conditions, tyre size, traffic and ambient conditions may result in different fuel consumption and carbon dioxide emission levels to those achieved under the test parameters referred to above. More details are contained in the owner's manual.

Audi Q2 Dimensions in mm

Dimensions are for unladen vehicle weight. Luggage compartment volume¹ 405/1,050 l (second value is with the rear seat backrest folded down and the vehicle loaded up to roof height). Turning circle approx. 11.1 m.

*Maximum headroom. **Elbow room width. ***Shoulder room width.

Audi Q2 quattro Dimensions in mm

Dimensions are for unladen vehicle weight. Luggage compartment volume¹ 355/1,000 l (second value is with the rear seat backrest folded down and the vehicle loaded up to roof height). Turning circle approx. 11.1 m.

*Maximum headroom. **Elbow room width. ***Shoulder room width.

The figures for fuel consumption and CO₂ emissions can be found from page 54 onwards.
¹Technical specifications refer to a basic vehicle without country-specific basic equipment and the selected optional equipment.

Legal notices about Audi connect navigation & infotainment with customer SIM card

The use of services supported by Audi connect is possible only in conjunction with an optional navigation system and Audi connect (including car phone – depending on the vehicle model). Depending on the vehicle model, you also require a SIM card with data option and with LTE option to use LTE² – a SIM card with phone and data option or a Bluetooth-capable smartphone with remote SIM Access Profile (rSAP)³ is required to use the integrated car phone function. The services are available only with an existing or separate mobile phone contract and only within the range of the respective mobile phone network. Additional costs may be incurred when receiving data packets from the internet, depending on the terms of your mobile phone contract, particularly when used abroad. Because of the high data volumes involved, a data flat rate is strongly recommended.

Legal notices about Audi connect navigation & infotainment with SIM card permanently installed in the vehicle

Use of the services supported by Audi connect is possible only in conjunction with an optional navigation system. Audi connect services are provided through AUDI AG/importers. The data connection for Audi connect services is set up through a mobile services provider via a SIM card permanently installed in the vehicle. The costs for these data connections are included in the price of the Audi connect services. The costs for the Wi-Fi hotspot are not included. The data connection for the Wi-Fi hotspot can be arranged with a selected mobile services provider as a payable data tariff. You will find information about tariffs and booking at www.audi.com/myaudi.

Alternatively, a customer SIM card can be inserted into the card slot to establish a data connection. In conjunction with the optional Audi phone box, a Bluetooth-capable smartphone with remote SIM Access Profile (rSAP)³ can also be connected to use the integrated car phone function. If an external SIM card is inserted into the card slot or connected via rSAP, all data connections, both for the Audi connect services as well as for the Wi-Fi hotspot, will be established via this external SIM card. In such cases, the costs incurred are attached to those accrued via the external SIM card.

General legal notices about Audi connect navigation & infotainment

The availability of the services supported by Audi connect navigation & infotainment varies from country to country. Audi connect services are provided for at least 1 year from vehicle delivery.⁴ 24 months after vehicle delivery, the Audi connect services will be extended free of charge once for 12 months. If you do not require this extension, please write to:

AUDI AG
Audi International Customer Care Services
85045 Ingolstadt, Germany
Email: kundenbetreuung@audi.de
Tel.: +49 800 28347378423

Ask your Audi partner about a subsequent extension of the Audi connect services. Depending on the vehicle model, Audi connect enables access to Google and Twitter services. Permanent availability cannot be guaranteed; Google and Twitter are responsible for this. Please visit www.audi.com/connect or contact your Audi partner for more detailed information about Audi connect; contact your mobile services provider for information about contract conditions.

²Requires LTE card contract for full use. For information about the availability and use of LTE support, please contact your Audi partner. ³Please contact your Audi partner or visit www.audi.com/bluetooth for information on compatible mobile phones. ⁴The teaser phase offered by AUDI AG in connection with the “Audi connect Navigation & Infotainment with integrated SIM card (3 months)” equipment version is available for 3 months from initial registration and ends automatically after these 3 months. Upon the purchase of an Audi connect Navigation & Infotainment licence, these 3 months shall not count towards the total duration of the Audi connect services. ⁵From Audi Sport GmbH. ⁶Please note the special information relating to wheels on this page.

Classifications of tyre parameters

The table shows the range of fuel efficiency, wet grip and exterior noise emission classes for the different tyre sizes of the Audi Q2.

	Tyre size	Fuel efficiency class	Wet grip class	Exterior noise emission class
Summer tyres	205/60 R 16	C-B	B	71-69
	215/60 R 16	B	B	69
	215/55 R 17	C-B	B-A	71-68 -
	215/50 R 18	C-B	A	68
Winter tyres	235/40 R 19	E-C	B-A	71-70 -
	205/60 R 16	E	B	68
	215/55 R 17	E	B	71

It is not possible to order a specific tyre. Please ask your Audi partner which tyres are available in your country.

Important information

Special information about the wheels: Wheels with gloss turned or gloss milled finish as well as polished or partly polished aluminium wheels must not be used in wintry road conditions. For manufacturing reasons, the rim surface does not have sufficient corrosion protection for such use and can be damaged permanently by road salt or similar.

Equipment of the Audi Q2 illustrated (p. 2-31):
Equipment line: Audi Q2 Edition #1
Paint finish: quantum grey
Wheels: 19-inch Audi Sport cast aluminium wheels in 5-arm rotor design in gloss anthracite grey, gloss turned finish^{5,6}
Seats/seat upholstery: sport seats, front in fine Nappa leather, black, accentuated strips and contrasting stitching in rock grey
Inlay: format light graphics with Ambiente lighting package
