T-Cross

You'll just want one

It's not often that a car comes along offering the perfect mix of style, practicality and downright fun. Volkswagen's new T-Cross is that car – a funky and playful SUV that looks compact on the outside, but which is bursting with character and features on the inside.

The T-Cross has been designed from the ground up to suit your lifestyle, no matter whether you select the Life or Style model grades. Cheeky styling, versatility and individuality set the T-Cross apart, as does its focus on pure driver enjoyment.

Effortless performance begins with the T-Cross's TSI engine, which produces 85kW of power and 200Nm of torque. That impressive torque output means you'll always have plenty of acceleration on tap for overtaking manoeuvres or for negotiating everyday traffic. What's more, the T-Cross's amazing fuel efficiency means you'll get around town with only occasional stops for fuel.

Practicality is a given when you drive the T-Cross. Not only does the cabin feel exceedingly spacious and light for a vehicle this size, clever touches abound such as large driver and passenger door storage compartments and a drop-down rear bench for added boot space. Compact it may be, but you'll never be stuck for room to carry a full load of shopping or luggage for a weekend away.

Good things come in small packages. And the T-Cross offers plenty of proof.

Exterior

Few cars can brighten your day like the new T-Cross. Funky and fun, it's just as suited to a spontaneous trip to the beach as it is a weekend away with friends. Setting it apart from other vehicles on the road is its combination of playful styling and urban attitude in a slick package designed to engage every one of your senses. Here is a car with the rugged design of an SUV, but compact and versatile enough to make every drive a blast.

Both the Life and Style model grades are genuine head-turners, but there are subtle design differences that set one apart from the other. While the Life model grade has stylish, black 16" Rochester alloy wheels and black roof rails, the Style model grade receives 17" Bangalore alloy wheels, plus chrome roof rails and other exterior highlights.

A distinctive new design feature in the T-Cross is an appealing horizontal bar that runs across the tailgate and connects the rear LED lights. A black rear spoiler adds a dash of flair, while flared wheel arches and strong body contours down the length of the T-Cross show the wheels off to their best effect.

Lighting the road ahead with bright and penetrating beams are the T-Cross's LED headlights (available in the Style Model only) that sit either side of a black grille with chrome strip and Volkswagen roundel. Rounded fog lights in both model grades ensure you'll always have the best of visibility in gloomy conditions, with static cornering lights perfect for lighting the path around city corners.

- 01 Large tailgate opening, access to large luggage area
- 02 LED tail lights, reflector panel
- 03 LED headlights (Style model only) with integrated LED daytime driving lights

T-Cross Style model shown with optional R-Line Package.

Interior

The Volkswagen T-Cross may look compact, but you'll be amazed at the amount of space inside the cabin and by how comfortable you'll feel.

Every attention has been made to making the driver feel at one with the vehicle, from the touch of the leather 3-spoke multi-function steering wheel through to the impressively modern dashboard layout and supportive front seats with lumbar and height adjustment.

The Multi-Function Display in the T-Cross places crystal-clear driving information right in the driver's field of vision. Touchpoints throughout the cabin, such as the gearstick, temperature controls and window controls, are all within easy reach and are a delight to use.

Aesthetics and versatility go hand in hand with the T-Cross. Matching seat trim and dashboard décor convey a sense of cohesion and integrated design. And convenient features abound, such as the auto-dimming rear-view mirror and storage compartments in the front and rear doors that are large enough to accommodate large bottles.

Exceptional space continues from the front through to the boot. The T-Cross's rear seat is capable of sliding up to 14cm, which means generous legroom for even tall passengers and the ability to maximise boot space to accommodate large and bulky luggage items. By lowering the 60:40 split/folding rear seat backrest, boot space in the T-Cross can be increased to truly enormous proportions.

You can take driver enjoyment up a notch with a number of subtle but undeniably cool features found in the Style model grade. These include ambient lighting on the dashboard, steering wheel gearshift paddles for fast up- and down-shifting, Comfort Sport front seats and carpet mats.

Outstanding space, maximum comfort and Volkswagen's customary range of driver and passenger conveniences make the T-Cross the perfect choice for every need.

Safety and Technology

Every drive in the new T-Cross is a pleasure thanks to its stellar array of technological innovation. At the same time, the vehicle's suite of safety features combine to provide exceptional protection for driver and passengers alike.

Clever technology is at your fingertips with Volkswagen's 8" Composition Media infotainment system, a Wireless Charging tray for convenient charging of smartphones, plus four USB ports. Other technology, such as rain-sensing wipers, Keyless Access (in the Style model grade) and power folding door mirrors (Style model grade) make life's little hassles that much easier.

An extensive range of active and safety features are included in every Volkswagen – and the T-Cross is no exception. Under the name IQ.DRIVE, Volkswagen has bundled together its suite of driver assistance aids with a view to reaching its goal of truly autonomous driving.

Volkswagen has already taken great strides towards this through technology such as Adaptive Cruise Control* (available in the Style Model Grade or with the optional Driver Assistance Package in the Life model grade), by using radar and a camera to maintain a vehicle's position within its lane (Lane Assist)* and through use of innovative technology to recognise fatigue on the part of the driver (Driver Fatigue Detection)*.

Other technology in the T-Cross is incredibly useful for everyday city driving, whether to help avoid everyday bumps and scratches, or to reduce the likelihood of a collision with another road user when they enter the vehicle's path.

Front Assist with City Emergency Brake (City EB)*, Pedestrian and Cyclist Monitoring*, Manoeuvre Braking and Park Assist* (Available in the Style model grade) are all evidence of Volkswagen's ability to harness technological innovation to ensure the best in convenience and safety.

Optional Packages

Choose to be different with a range of optional packages for the Volkswagen T-Cross that are the perfect fit for your lifestyle.

For an unrivalled entertainment experience, it's hard to go past the Sound & Vision Package, available in both the Life and Style model grades. The package puts you in charge of a fully customisable Digital Cockpit that offers all the essential driving information you need via a full colour, high-definition display screen.

Of course, an infotainment system as good as the Discover Media navigation system needs a premium speaker experience, which is why the Sound & Vision Package comes complete with the seriously impressive 300W beats™ premium audio system. Audiophiles will love listening to their favourite playlist every time they get behind the wheel.

Standing out from the pack is easy when you select the optional R-Line Package (Style model grade only). Sporty exterior styling additions include large 18" Nevada alloy wheels, R-Line logos on the radiator grille and front wheel guard, and a distinctive lower air intake and rear diffuser. Dark tinted rear and rear side window glass add further R-Line impact, as does the interior with its racing-themed extras. 'Race' decorative dashboard panelling, 'Carbon Flag' sports cloth and microfibre upholstery, leather multi-function sports steering wheel and aluminium pedals combine to offer an immersive and thrilling driving experience.

For the ultimate in driver protection and comfort, Volkswagen's optional Driver Assistance Package (Life model grade only) takes the T-Cross' already outstanding safety features and raises the bar.

Technology such as Adaptive Cruise Control (ACC)*, Blind Spot Monitor* with Rear Alert*, Park Assist*, Proactive Occupant Protection System and power folding door mirrors combine to provide exceptional convenience for vehicle occupants.

Colours & Upholstery

Vibrant paint finishes and alluring seat upholstery mean you can express yourself like never before. Choose between striking Pure White and Dark Petrol paint finishes as standard or, for a small additional cost, select from a range of metallic colours such as Makena Turquoise, Reflex Silver, Energetic Orange, Limestone Grey and Reef Blue. Deep Black pearl effect paint is an additional colour that is sure to turn heads.

Choose the T-Cross Life model grade and receive comfortable black-grey comfort cloth seat upholstery, with black-brown comfort sport cloth seat upholstery available in the Style model grade. For added impact, choose the Style model grade's R-Line Package and receive black 'Carbon Flag' sports cloth and microfibre upholstery.

Dark Petrol*

Makena Turquoise

Pure White

Reef Blue

Energetic Orange

Reflex Silver

Limestone Grey

Deep Black Pearl

Please note that metallic and pearl effect paint are optional at extra cost. The print process does not allow for exact reproduction of the exterior or the upholstery colours. Please contact your Volkswagen Dealer for further information on colours and upholstery combinations.

*Dark Petrol is not available in combination with the optional R-Line package.
