

i20

Exceeding expectations.

The all-new i20

The bold angular lines of the all-new i20 convey its advanced capabilities and invite you to take a closer look. Step inside, push the Start engine button and the i20's dynamic performance satisfies at all levels. Premium appointments including full digital displays exceeds all expectations.

Take the spotlight in style.

Hyundai's style leadership is on full display in the sporty and fun-loving all-new i20. Wider, longer and equipped with LED lighting, a two-tone exterior color scheme and a bold, parametric-style grille, the all-new i20 radiates Sensuous Sportiness Hyundai's new design language in absolutely every detail.

More efficient and more fun.

The all-new i20 comes with next generation powertrain technologies that deliver better fuel efficiency and extra horsepower. And that adds up to more driving fun. The menu of engine and transmission options has been expanded so you can choose the combination that best fits your personal requirements. Gearbox options include a choice of 5- or 6-speed manual shifters, a 6-speed automatic and a gen-two 7-speed dual clutch transmission.

Electronic Stability Control

ESC can detect skidding and using computerized technology, it will automatically apply the brakes to individual wheels to counter the loss of directional control, help maintain vehicle stability and reduce the risk of a collision.

Safe and secure.

The all-new i20 comes equipped with multiple layers of protection starting with the expanded application of advanced high-strength steel that serves as the first shield. Advanced de-powered-type air bags up to six can be had provide a second line of protection. Other optional safety features like Static Bending Lights, Electronic Stability Control and Hillstart Assist Control help make you a better, safer and more confident driver.

Rear Parking Sensors

The camera lets you see everything when backing up and if you're too close, the distance sensors will trigger an alarm.

6-airbag system

Driver and front passenger are protected by two front airbags and two side airbags. Side curtain airbags running the length of the cabin improve head protection and increase the total airbag count to six.

Static Bending Light

When driving through a curve or around a corner, SBLs light up the dark spots that aren't covered by headlights.

Rear view camera with guidelines

Parking is a lot easier with this option: Colored lines on the rear view display help you align the vehicle with the target parking spot.

Hillstart Assist Control

Stopping and starting on very steep road can be stressful and potentially dangerous. HAC prevents the car from accidentally rolling backward whenever the brake pedal is released on a hill.

Reinforced body structure

Key areas that are critical to occupant safety are reinforced with advanced high-strength steel which accounts for 36 pct of the all-new i20's body structure.

Features

15" steel wheel with full-size cover

16" steel wheel with full-size cover

16" two-tone alloy wheels
